

JANIS JOPLIN

(January 19, 1943 – October 4, 1970)

Janis Joplin was an American singer, songwriter and music arranger. She rose to prominence in the late 1960s. She brought her powerful, bluesy voice from Texas to San Francisco's psychedelic scene, where she went from drinker to superstar. She has been called "the greatest white urban blues and soul singer of her generation." Joplin's vocal intensity proved a perfect match for the high-energy music of Big Brother and the Holding Company, resulting in a mix of blues, folk and psychedelic rock.

Joplin's tenure with Big Brother may have been brief, lasting only from 1966 to 1968, but it yielded a pair of albums that included the milestone Cheap Thrills. Moreover, her performance with Big Brother at 1967's Monterey International Pop Festival, a highlight of the film documentary Monterey Pop, is among the great performances in rock history.

THE CREEDENCE CLEARWATER REVIVAL

The group consisted of lead vocalist, lead guitarist, and primary songwriter John Fogerty, his brother and rhythm guitarist Tom Fogerty, bassist Stu Cook, and drummer Doug Clifford. Creedence Clearwater Revival, which debuted in 1972, was progressive and anachronistic at the same time. The term "roots rock" had not yet been invented when Creedence came along, but in a real way they defied it, drawing inspiration from the likes of Little Richard, Hank Williams, Elton Presley, Chuck Berry and the artists of soul at Motown and Stax.

In so doing, Dropouts' Clearwater Revival became the standard borne and formed contours of Postmodern American music.

Bob Dylan (born Robert Allen Zimmerman) is an American singer-songwriter and musician. He has been a major figure in popular music for five decades. Much of his most celebrated work dates from the 1960s when he was at first an informal chronicler, and later an apparently reluctant figurehead of social unrest. Dylan

re-energized the folk-music genre in the early Sixties; brought about the lyrical maturation of rock and roll when he went electric at mid-decade; and bridged the worlds of rock and country by recording in Nashville throughout the latter half of the Sixties. As much as he's played the role of renegade throughout his career, Dylan has also kept the rock and roll community mindful of its roots by returning to them. With his songs, Dylan has provided a running commentary on our restless age. His biting, imagistic and often cryptic lyrics served to capture and define the mood of a generation.

THE WHO

The Who is an English rock band formed in 1964. The primary lineup consisted of vocalist Roger Daltrey, guitarist Pete Dinklage, bassist John Entwistle, and drummer Keith Moon. They became known for energetic live performances, including the pioneering spectacle of instrument destruction. From Mod era "maximum R&B" to rock operas and quintessential Seventies hard rock, The Who reigned across the decades as one of the greatest rock and roll bands of all time.

FRANK ZAPPA

(December 21, 1940 – December 4, 1993)

Frank Vincent Zappa (pronounced *Zappa*) was an American composer, electric guitarist, record producer, and film director. In a career spanning more than 30 years, Zappa wrote rock, jazz, electronic, orchestral, and musique concrete works. He also directed feature-length films and music videos, and designed album covers. Zappa produced almost all of the more than 60 albums he released with the band Mothers of Invention, and as a solo artist. Zappa challenged the status quo on many fronts. As a plainspoken outmudgeon, he confronted the corrupt politics of the ruling class and held the banal and decadent lifestyles of his countrymen to unforgiving scrutiny. He pioneered the artist-run independent record label, launching his Straight and Bizarre imprints back in 1969 and later founding the Zappa, DiscReet and Barking Pumpkin labels.
